

HOW TO ▶ WIN ◀ IN RETAIL

ALL YEAR ROUND

Inspiring Display and POS materials
for every occasion

Sell more in retail

- we ensure your brand is seen in-store

Otherwise, your competitors may win consumers' attention while your brand remains on the shelf. Therefore, it is not only important to **stand out** when there are promotions, but also throughout the entire year, which fortunately offers plenty of **good opportunities to differentiate**.

At **DS Smith**, we are experts in developing sustainable, innovative and eye-catching promotional solutions with our **Display and POS materials**. This brochure aims to inspire you with solutions that meet every occasion, enabling you to **optimise your sales potential** all year round.

Gardening Inspiration

Everything starts to grow in the Spring. So do sales within the Home & Garden categories.

1

2

1

Pallet cross

Simple decoration for stacked goods on pallets

2

360 degree displays for plant and flower seeds

Showcasing a range of small products in an organised way.

Easter

Easter is one of the biggest sales periods in retail, especially when it comes to categories like chocolate and beverages.

2

1

1

3-part-portal

Simple but effective portal solution consisting of just three parts. Easy assembly that maximises use of space

2

3-dimensional easter eggs

Assembled with silk ribbon. Standing or hanging.

Celebrations

spring presents an opportunity for selling gifts in retail. Such as valentines, May Day celebrations and school graduations.

CONGRATULATIONS
confirmands of 2025

1

1

Greeting card displays

Generic card displays. Reusable due to interchangeable headers.

2

Flower vases

Flower vases for flowers in bags or buckets (not water proof). Can be made in water resistant cardboard that has the same level of recyclability as regular corrugated cardboard.

2

Mother and father's day

The days where we celebrate those we love the most are also good opportunities for selling gifts in retail.

1

½ pallet display with step shelving

By switching the front and header sign- the display can be used for both mother and father's day

Summer

Summer represents one of the most opportune times for retailers to drive brand awareness and sales. As the weather heats up and people spend more time outdoors, there is a carefree, relaxed mindset that puts consumers in the mood to shop and treat themselves.

Graduation

When students graduate, it is time to celebrate. This is a good opportunity for different categories, such as chocolate, drinks and flowers.

1

1

1

Scalable portal solution

The connecting upper section is flexible in length allowing the solution to be used in contexts with more or less space.

Outdoor

When the weather improves, we head outside to enjoy the outdoors.

1

Display for Umbrellas

Helps balance the large products while maintaining a tidy look.

2

1/1 pallet display

Displays that showcase the assembled product while also providing shelf space for the boxed item.

1

2

Tour de France

An annual and very popular event that attracts consumer interest and can help brand your products.

1

2

1

Exhibition podium

Triangular podium with sign. Can be designed in any size for various products.

2

Large scale Arc De Triomphe portal

Voluminous with great eye-catching effect. Legs of the arc contains a dump bin functionality.

Ice Hockey

1

Take advantage of the many major sporting events that take place every year. Maybe even those you don't know about.

1

Shop-in-shop environment

Large yet simple set-up for creating a themed space in a larger, open environment.

Starting school

As new pupils start school, brands can capitalise on multi-buy sales with parents eager to get all items in one trip.

2 Ruler ellipse pop-up

1

Two faced OnePiece display

OnePiece displays are shelf displays that come in just one part. They are easy to assemble and benefit from simple warehouse management. They also enhance shoppability in-store as goods are shoppable from both sides of the display.

1

3 Pencil dummy with goods on hooks

Festival season

Summer is a time for festivals and other large outdoor events.

3 Communication wall with podium

1

Sun glasses display

The modular solution improves display flexibility, different combinations can be used to display more or less glasses with the same display.

2

Telescopic dump bin

Dump bin depth can be easily changed by moving the outer part up or down.

2

1

Autumn

Autumn welcomes a fresh start with renewed shopping energy after the lazy days of summer.

Page 17

Halloween

Page 18

Black Friday

- Hanging signs
- Simple shrouds
- Shelf frame
- Shelf tray

Halloween

In recent years, this event has become one of the most popular in retail.

1

Illustrated as a “walk-through-version” that maximises product exposure.

2

Simple but effective arc lifts the appearance of ordinary stacked product cases. The signage on the sides of the stacked product columns is emphasised by an arc added on top.

Black Friday

Black Friday continues to break sales records in retail and has become a must for many brands.

Hanging signs

Free rotation

Shelf frame

Grabs attention to a specific part of the shelf.

Shelf tray

Draws the eye to the lower shelves. With branding appearing as the products are shopped.

Simple shrouds

Simple shrouds can be added to pallets with stacked goods.

Winter

Winter represents one of the biggest sales opportunities of the year for retailers and brands. The holiday season, which include both Christmas and New Year's, sees a massive spike in consumer spending across virtually all product categories.

Page 20

Christmas

- 360 degree display
- 3-dimensional golden stars
- Christmas house

Page 21

New Year

- Hexagonal pop-up displays
- Dispenser floor display

Page 22

Healthy January

- Gravity feed tower display

Page 23

Candy Fair

- One pallet unit
- Small display units

Page 24

Valentine's Day

- Floor display with mopping tray
- Desk units
- Stepping tray display

Christmas

The biggest sales period of the year, when it really matters to be seen by consumers.

1

360 degree christmas tree display

Robust and effective seasonal displays for a range of product types.

2

Christmas house

A cross structure to be used in between $\frac{1}{4}$ pallet displays lifting up the snowy christmas roof above the products.

3

3-dimensional golden stars

Hanging from the ceiling.

New Year

The calendar year ends with a bang! With new year parties driving firework, alcohol and apparel sales.

1

Hexagonal pop-up displays

Robust displays that are designed for easy setting up in-store. Pops up in a few seconds with products visible to the shopper from all angles.

2

Dispenser floor display

Top section slots into base for transportation meaning the display is easily made sales ready in-store.

1

2

1

Healthy January

With the number of health conscious consumers peaking in January brands should use the opportunity to highlight the nutritional benefits of their products.

1

2

1

Gravity feed tower display

Goods will feed from the tower and into the shopping tray.

2

Angled trays

Modular tray solution that angles the products towards the shopper. Can be used with flexible number of trays.

Candy Fair

A recurring event in retail, where sales are high, especially in confectionery.

1

One pallet unit can be used in an endcap position. Alternatively, two units placed back-to-back with a top piece creates an impactful 360 degree candy island.

2

A combination of smaller display units connected with angled filler pieces creates a half rounded 1/1 pallet exhibition.

Valentine's Day

The perfect opportunity to sell gifts that you can give to the one you love.

1

2

3

1

Floor display with mopping tray

Protective trays for displays made in moisture-resistant cardboard that are recyclable along with the rest of the display.

2

Desk units

Small units for displaying exclusive products on desks and counters

Stepping tray display

Trays that step backwards enhance shopper visibility while still being strong enough to support heavier products.

OnePiece

Our variety of smart displays can be used for all occasions while still being easy to assemble in-store.

Variant with 5 shelves

Variant with slanted shelving for visibility

Variant with built in signage

Variant that can be folded for easy transport

Variant with built-in back support

Large display, e.g. in half-pallet format

Sell more while saving time

Pop-up display that can be set up in just one move.

Pallet dumper with built-in bottom and no loose parts.

Pop-up base with built-in reinforcement that can be folded out in one move.

One-piece display that can be assembled in store or at the warehouse.

easyad

OUTDOOR MEDIA SYSTEM

DS Smith can provide a full service solution, including assembly of frames, printing of posters with continuous management.

The importance of being seen, at the right time, in the right place to trigger your sales

With **easyad**, you have a smart and cost-effective solution. Reversible signs with simple installation make it easy to act quickly with new messages. High quality with digitally- or screen-printed, moisture-resistant posters in aluminum frames ensures long-term durability. The corrugated cardboard material is environmentally smart and easy to recycle.

Stand out!

Traditional billboards offer limited forms of expression. With Easyad, you can express yourself outside the box.

easyad

OUTDOOR MEDIA SYSTEM

Anywhere you want

The sturdy aluminum frames can be installed both freestanding and on walls. Giving you the freedom to choose the locations where your customers are.

Quick and secure

Our digitally or screen-printed, moisture-repelling posters keep their color and can withstand long-term exposure. The frames with snap function keep the signs in place, even in harsh climates.

Natural benefits

Easyad is mounted without glue, tape or other environmentally sensitive substances. The cardboard's fibers in most cases come from FSC-certified forests and can be recycled many times, before finally returning to nature.

DS Smith

Europe's leading manufacturer of corrugated board with all the resources for design, printing and installation. We help all the way - from planning to continuous maintenance.

Visit our homepage to hear more about DS Smith's values and how we can help you sell more in-store.
